Reminder Install your eSIM a few hours before your flight and activate when you land!

Click on your device to follow the appropriate instructions.

IOS (click here)

ANDROID (click here)

Are you waiting for your flight?

Install now! (click here)

Have you just arrived at your destination?

Activate now! (click here)

How to install the eSIM? Choose the best option for you.

Install by scanning the QR CODE (if you have the code on another screen to scan). (click here)

Install manually (if you are unable to scan the QR CODE). (click here)

Before we start, make sure

Your Internet connection is stable.

You have a secondary screen from which you can scan the QR code with your smartphone.

ORGODE Installation

Just a heads up, have the code up on another screen so you can easily scan it with your smartphone camera.

Dive into your inbox on a different device to the one you will be using and open the confirmation email we sent when you made the purchase.

Grab your iPhone and scan the QR CODE from your email to kickstart the eSIM installation on the device of your choice.

Follow the step-by-step instructions displayed on your screen.

Manual Installation

Install the eSIM manually on your smartphone

Activate eSIM

An eSIM from NOS Portugal is ready to be activated on this iPhone.

Label your data plan. We suggest "get eSIM"

Concel

Cancel

Mobile Plan Labels

Choose labels for each of your mobile plans.

Set a primary line for messages and calls

Default Line

Your default line is used to call or send messages to people who are not in your contacts.

The people in your contacts can be assigned a preferred line at any time in the Contacts app.

Personal

I get eSIM

You can customise this later in Settings.

Continue

And a primary line for iMessage and Facetime

Da	CK	

iMessage & FaceTime

Choose which mobile plans you want to use with iMessage and FaceTime for your Apple ID.

Personal

get eSIM

Continue

Select the data plan you will be using

Make sure you choose your get data plan. Don't forget to turn off "Allow Mobile Data Switching" to avoid addtional roaming changes.

Mobile Data

Choose your default line for mobile data. If you want the best coverage, you can enable mobile data fallback.

Personal

get eSIM

Allow Mobile Data Switching

Turning this feature on will allow your phone to use mobile data from both lines depending on coverage and availability. You can change your selection later in Settings > Mobile Service > Mobile Data.

Done

Attention!

Once your eSIM is installed, it's ready to roll!

If you haven't reached your destination yet, simply deactivate it until you do.

Now, return to Settings and tap "Mobile Data"

Select your eSIM
